Generation AI: Considerations for Children's Exposure to Artificial Intelligence in the Home and Classroom

Join us for coffee and conversation.

Hosted by Bing Parent Danielle Benecke

Join us: Wednesday, November 6, 2019
9:00am to 10:00am

Location: Tower House
Bing Nursery School
860 Escondido Road

AI is increasingly embedded in children's toys, educational tools, and classrooms. These technologies carry the potential for sophisticated new approaches to education and child development, but also raise complex questions and risks around children's health and privacy, among other things.

Bing parent Danielle Benecke is a technology lawyer involved in the World Economic Forum's Generation AI project (in partnership with UNICEF), a multi-stakeholder initiative aimed at designing best practice guidelines and policy measures for children's use of AI technologies. Danielle will share aspects of that work and use it to stimulate a discussion around how we might approach these technologies in our own homes, classrooms, and parent/teacher-child relationships.

These events are open to adults of the Bing Nursery School Community.
